

Kansai Airports Becomes First Airport Operating Company to Acquire Resilience Certification

Kansai Airports announces that it has become the first airport operating company to acquire "Resilience Certification," a certification given to businesses actively engaged in business continuity in the event of a disaster.

This certification is a system established in February 2016 by the National Resilience Promotion Office of the Cabinet Secretariat, based on a guideline regarding the certification of organizations contributing to National Resilience. The purpose of this certification is to build broad-based resilience in society as a whole through expansion of the active efforts for business continuity by not only major companies but also SMEs, schools, hospitals and other organizations.

We have long engaged in thorough crisis management across our airports. With efforts such as regularly conducting large-scale disaster drills based on the occurrence of a large earthquake or tsunami, we have operated our airports in a way that places the highest priority on customer safety and security. We acquired this Resilience Certification to further enhance our business continuity and become an even more trusted company.

We will continue to promote business continuity efforts to fulfill our social mission as a regional base for disaster prevention.

KANSAI AIRPORTS

Shaping a New Journey

As of April 1, 2016, Kansai Airports succeeded the operating rights of Kansai International Airport ("KIX") and Osaka International Airport ("ITM") from New Kansai International Airport Company ("NKIAC") and commenced business as an operating company for the two airports. Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports shares the common goal of maximizing the potential of the Kansai International Airport and Osaka International Airport, improving services to passengers and ensuring the highest levels of safety and security, investment to enhance safety, convenience and comfort to increase value, as well as enhancing community relations in the neighborhoods of the airports and benefiting the Kansai regional economy. On December 15, Kansai Airports signed a concession contract with the New Kansai International Airport Company ("NKIAC") for an operating period of 44-years.
