

Today's earthquake effects at KIX, ITAMI and KOBE

Please find below the official report of the three Kansai airports after the northern Osaka earthquake, which struck at 7:58 am on June 18, 2018. (As of 6pm)

Although disturbances, such as flight delays, have occurred at the facilities, the three airports have continued to operate normally.

■ Kansai international airport

Runway : Normal operations
Terminal : Normal operations
Casualties : None
Flights : No cancel flight, one arrival flight was delayed by 13 minutes due to runway check.
Shop : Usual operations

■ Osaka international airport

Runway : Normal operations
Terminal : Partly damaged (water leak, peeling of ceiling, cracks, Air conditioning outlet falling etc.). Details are being confirmed.
Casualties : None
Flights : Cancelled flights 82 (departure 41 / arrival 41)
Delayed flights: Numerous.
Shop : Limited operations in some stores due to employees encountering difficulties on their commutes.

■ Kobe airport

Runway : Normal operations
Terminal : Normal operations
Casualties : None
Flights : No cancelled flights. 4 departure flights delayed up to 26 minutes due to runway checks
Shop : Usual operations
