

Private cars to be allowed on KIX Access Bridge from 12:00 am on October 6, 2018

The access bridge that has been closed to private and rental cars since Typhoon Jebi struck Kansai International Airport (KIX) will be fully reopened at 12:00 am on October 6, 2018.

As the bridge's traffic capacity remains to be limited, guests are kindly advised to:

- refrain from using private or rental cars and use public transportation as much as possible.
- avoid coming to the airport by cars during morning peak hours (7:00 am through 9:00 am, particularly between 8:00 am and 9:00 am) as there will likely be heavy traffic on the bridge during the hours. Allow extra time for travel to the airport.

Visit the website of the transport ministry (MLIT) for more details:

http://www.mlit.go.jp/report/press/road01_hh_001082.html

* Car Parks 1 to 5 on the airport island are operating normally beginning October 4, 2018.

* To ensure safety on the road, traffic may be restricted again depending on traffic conditions.
