

KIX Cargo Community to further enhance cooperation with stakeholders and shape the future of air cargo operation

Kansai Airports announced that it established the KIX Cargo Community in October 2019 in cooperation with five business operators engaged in air cargo services.

The focus of the KIX Cargo Community is to study what it takes to bring the cargo operation at Kansai International Airport (KIX) to the next level. In pursuit of such an objective, the community is launching efforts to facilitate digitalization, implement new labor-saving technologies, improve the work environment, and study a large-scale renovation of the cargo facilities.

Going forward, we will invite more companies to take part in each upcoming project while forming working groups to push forward the initiatives.

Kansai Airports will continue to work closely with stakeholders to discuss the future of air cargo operation and drive quality improvement in cargo handling in a bid to bring innovation to Japan's air cargo industry and make KIX recognized as the Best Cargo Airport.

[KIX Cargo Community]

- Establishment
October 2019
- Members
 - Kansai Airports (Secretariat)
 - ANA Cargo Inc.
 - JAL Kansai Aircargo System Co., Ltd.

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
