

KIX to hold disaster drill to prepare for typhoon season amid COVID-19 pandemic

Kansai Airports today announced that it will carry out an annual disaster drill at Kansai International Airport (KIX) on July 9, 2020 to prepare for the coming typhoon season.

This year, the drill will simulate a scenario in which a typhoon hits the airport while COVID-19 is still spreading. Assuming that transportation disruptions have stranded passengers, the drill will test infection measures such as isolation of people feeling unwell and assistance for passengers that focuses on avoiding the “Three Cs” (closed spaces, crowded places, and close-contact settings).

By raising employees’ awareness of disaster preparedness and refining response guidelines through the drill, the airport will ensure safe operations while cooperating with relevant organizations.

Kansai Airports will continue to make every effort to provide a safe airport environment for all passengers.

[Drill outline]

Date: Thursday, July 9, 2020 from 15:00 to 16:00

Locations:

Passenger registration: T1 Operation Center (Level 2, Terminal 1)

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
