

Earthquake & tsunami drill to take place at KIX

Kansai Airports today announced that it will carry out an earthquake and tsunami drill at Kansai International Airport (KIX) on November 5, 2021.

The drill, covering the entire airport islands, simulates a scenario in which a Nankai Trough mega-quake with magnitude 9.0 occurs, triggering a major tsunami warning for Osaka Prefecture. Through practices such as initial response to the earthquake and evacuation of the terminal buildings, the drill aims at enhancing disaster preparedness among airport workers and building a shared understanding of actions to be taken in the event of an earthquake and tsunami.

This time, in addition to the regular program, we will verify the operation of hotlines, which will be set up at evacuation points when a tsunami occurs, and the use of the digital Emergency Information Card.

Kansai Airports will continue to strive for securing a safe traveling environment for all airport guests.

Drill outline

Date & Time	Friday, November 5, 2021 from 15:30 to 17:00
Location	Terminals 1 & 2, International & Domestic Cargo Areas, train station concourse
Participants	147 companies and organizations
Scenario	Earthquake: An earthquake hits off the coast of Wakayama Prefecture during the daytime of a weekday (magnitude 9.0, Japanese seismic intensity 6-upper). Tsunami: Following a major tsunami warning issued for Osaka Prefecture by the Japan Meteorological Agency, a tsunami of 2.6 meters strikes KIX 81 minutes after the earthquake.
Program	1. Information gathering & sharing, 2. Shakeout exercise 3. Earthquake evacuation, 4. Tsunami evacuation
Key focus	5. Covid-19 safety measures at the evacuation point 1. New evacuation routes and points 2. Allocation of security guards and passenger guidance using action cards 3. Safety check procedures of the train station concourse 4. Covid-19 measures at the evacuation point (train station concourse) 5. Set-up and use of hotlines 6. Digital Emergency Information Card (combination of DX and analog)
Infection control measures	1. Wearing masks 2. Temperature check & disinfection 3. Physical distancing

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“Kobe”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
