

Jetstar Asia Airways to launch Japan's first direct service to Clark KIX offers 41 weekly flights to Philippines

Kansai Airports is delighted to announce that Singapore-based low-cost airline, Jetstar Asia Airways, will launch three non-stop flights per week between Kansai International Airport and Clark International Airport in the Pampanga province of the Philippines from March 27, 2018. This is the first time Japan and Clark International Airport will be connected by a scheduled flight, marking the third Philippine destination serving from KIX along with Manila and Cebu.

Inbound travelers from the Philippines to Japan recorded the highest number in 2017 at 424,000 (data published by JATA, January 16, 2018). With increasing air-traffic passenger flow in the Philippines, the demand is growing rapidly in Clark - located in the suburbs of Manila, the capital. There are plans to set up new infrastructure in the Clark Special Economic Zone with new rail lines and hotels scheduled to be constructed in the coming years.

With the addition of this new service, KIX is expected to offer 41 flights per week (Manila: 31*; Cebu: 7*; Clark: 3) to the Philippines, allowing for more travel options to South-East Asia, where flights are already increasing.

Kansai Airports will continuously work towards providing higher customer satisfaction and greater travel experience by expanding our flight network across Asia and the world.

*Based on 2017 Winter Schedule, including connecting flights

○ Launch date:

Tuesday, March 27, 2018

○ Flight schedule

Destination	Flight No.	Schedule (local time)	Days of operation

Shaping a New Journey

As of April 1, 2016, Kansai Airports succeeded the operating rights of Kansai International Airport ("KIX") and Osaka International Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and commenced business as an operating company for the two airports. Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports shares the common goal of maximizing the potential of the Kansai International Airport and Osaka International Airport, improving services to passengers and ensuring the highest levels of safety and security, investment to enhance safety, convenience and comfort to increase value, as well as enhancing community relations in the neighborhoods of the airports and benefiting the Kansai regional economy. On December 15, Kansai Airports signed a concession contract with the New Kansai International Airport Company ("NKIAC") for an operating period of 44-years.
