

Easter Jet launches seasonal flights between KIX and Cheongju - Only airport in Japan to fly to Cheongju, South Korea

Kansai Airports is excited to announce that Easter Jet will launch three weekly seasonal flights from Kansai International Airport (KIX) to Cheongju in South Korea on Thursday, May 3, 2018.

Easter Jet is a South Korea-based low-cost carrier, currently operating 21 flights weekly from KIX to Seoul (Incheon) and Busan.

As it stands, there are no regular flights between Japan and Cheongju, so this will be the only regular service connecting the country with Cheongju. With the newly launched service, a total of 24 weekly flights will be operated between KIX and three destinations in Korea, including Cheongju.

The new route will serve the strong inbound demand from Korea as well as the outbound travel demand among Japanese, which is expected to increase during summer.

Kansai Airports is committed to expanding its network together with airlines including Asian low-cost carriers to provide convenient, comfortable and enjoyable travel experiences for airport guests.

- Operation period
Starting Thursday, May 3, 2018 until Friday, August 31, 2018 *Seasonal service

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
