

Earthquake Drill to be held at Osaka International Airport

Kansai Airports will carry out an earthquake drill at Osaka International Airport (ITAMI) on November 7, 2018. The drill will simulate evacuation from the terminal in the event of a 9.0 magnitude Nankai Trough earthquake that records a lower 6 on the Japanese seismic intensity scale. The use of *Mega-Speak*, a multi-lingual megaphone, and *Evac Chair*, a chair to transport people up and down a flight of stairs, will also be tested during the drill in a realistic scenario.

By enhancing employees' awareness of disaster prevention and reviewing appropriate initial responses to an earthquake through the drill, we will ensure safe and secure operations of the airport while cooperating with related organizations.

Kansai Airports Group will continue to conduct various drills to provide a safe and secure environment for all airport users.

[Earthquake Drill]

Organizer: ITAMI Terminal Fire & Disaster Management Association

Date & Time: Wednesday, November 7, 2018 from 3:00 pm to 4:30 pm

Shaping a New Journey

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
