

Earthquake and Tsunami Drills at KIX

Including a drill to improve readiness to support people stranded in the airport

Kansai Airports today announced that it will hold earthquake and tsunami drills at Kansai International Airport (KIX) on March 5, 2019.

Based on a scenario in which a major tsunami warning is issued for Osaka Prefecture following a magnitude 9.0 Nankai Trough megaquake, participants will carry out a variety of exercises, including evacuation from terminal buildings to a designated site. The drills are also designed to test the effectiveness of the measures developed based on the lessons learned from Typhoon Jebi in 2018. The measures include provision of sufficient support for people stranded in the airport and efficient transportation means to evacuate them from the airport island.

Kansai Airports will also carry out a drill to assemble the members of KIX Joint Crisis Management Group (JCMG) and confirm their roles. Consisting of 30 organizations, KIX JCMG will officially be established in April 2019.

These exercises are expected to reinforce cooperation and coordination with stakeholders and promote awareness of disaster preparedness among airport workers. Confirmation of appropriate first responses and actions in times of an earthquake and tsunami will contribute to the safe operation of the airports.

Kansai Airports is committed to maintaining a safe and secure airport environment, the foundation that underpins passenger experience and air travel.

<Earthquake and tsunami drill>

Time and date: 13:30 to 16:30 on March 5, 2019 (no postponement for light rain)

Location: Terminals 1 and 2, Aeroplaza, Kansai Airport Station, Int'l cargo area

Participants: Approx. 250 companies and organizations (about 350 people)

Scenario: (1) A Nankai Trough megaquake (magnitude 9.0) occurs with 6-lower on the Japanese seismic scale observed at KIX (6-upper at the south side of the Phase I Island).
(2) Following a major tsunami warning issued by the Japan Meteorological Agency for Osaka prefecture, a tsunami with a height of 2.6 meters strikes KIX 81 minutes after the earthquake.

Drill outline: Part 1: Site tour of KOC *Media personnel may join upon request (no photography/video recording allowed)
Part 2: Drill to assemble the members of KIX JCMG *Media coverage allowed only at the beginning
Part 3: On-site drill *Media coverage allowed
(1) Earthquake evacuation drill
(2) Support for people stranded
(Prioritize support in accordance with severity of needs)
(3) Transportation by bus for people stranded
(Guide evacuees to a bus stop and perform crowd control)

Evacuation drill

Transportation of
the injured

Distribution of
emergency supplies

Bus transportation
(crowd guiding/control)

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
