

## ITAMI to become the first Japanese airport to be equipped with dog toilet

Kansai Airports today announced that Osaka International Airport (ITAMI) will set up a pet relief area on February 13, 2020—the first of its kind at an airport in the nation.

The dedicated dog-toilet will be located in the airport’s pick-up and drop-off area. It enables dogs to relieve themselves before boarding and therefore is expected to reduce the stress of pets and improve the convenience and comfort for pet owners.

Service dogs, meanwhile, are allowed to use the accessible toilet near the pet relief area, along with ones in the terminal. This restroom, newly installed last December, is indicated with an assistant dog pictogram and equipped with an intercommunication system. To use accessible toilets for service dogs, owners need to prepare pee pads.

Kansai Airports is committed to bringing greater convenience to all airport guests.

Pee pole with washing functions

Water drinking area

### <Dog Restroom Outline>

- Location: ITAMI pick-up and drop-off area
- Hours: 5:30 am to 10:00 pm
- Facilities: Pee pole with washing functions, waste flushing system, shower, water drinking area, bench

- Contractor: ANA Sky Building Service Co., Ltd.  
ANA Sky Building Service, an ANA Group company, provides a wide range of services related to airport operations, such as: construction works; reception and passenger services; and installation and management of conveyors and security equipment. The company offers high-quality and competitively-priced services for major airports in Japan, including ITAMI and KIX.

## Shaping a New Journey

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
