

ITAMI unveils pedestrian deck connecting North Parking with monorail station and waiting room for long-distance buses

Kansai Airports Group is excited to announce that it unveiled a new pedestrian deck connecting the North Parking Structure with the monorail station, and will open a waiting room for long-distance buses, in a bid to improve convenience for visitors to the Osaka International Airport (ITAMI).

◆ Pedestrian deck

Opening date: Friday, June 26

Hours: Same as Osaka Monorail operating hours (from the first train to the last train in a day)

*Not accessible outside the above hours

The new pedestrian deck connects Level 3 (reservation area) of the North Parking Structure with the monorail station, enabling customers to move to and from the terminal building without getting wet in the rain. Built based on the barrier-free concept, the facility provides enhanced mobility for everyone. The runway-inspired design and lighting bring excitement to airport visitors.

The Level 3 parking spaces are available for online reservation 24 hours a day, 7 days a week. With direct access to the terminal building, the parking reservation service becomes even more useful for those visiting the airport by car.

◆ **Waiting room for long-distance buses**

Opening date: Wednesday, July 1

Hours: 5:30-22:00

Facilities: Free Wi-Fi and digital signage (displaying bus timetables, traffic information, and flight information)

*Five vending machines (for drinks, ice cream, snacks, etc.) to be installed in August

ITAMI will have a new waiting room for long-distance buses operating on a total of 11 routes to and from the airport. Facility users can enjoy access to free Wi-Fi, vending machines, and digital signage which shows bus timetables, flight information, and traffic information.

Kansai Airports Group is committed to boosting convenience and improving services to ensure comfortable and exciting travel experiences for all airport guests.

Shaping a New Journey

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
