

ORIX Buffaloes x Kansai Airports special collaboration - Don't miss out on a chance to win a limited-edition sticker -

Kansai Airports Group is excited to announce its very first collaboration campaign with ORIX Buffaloes in support of the local baseball teams harnessing the power of the sport to revitalize Kansai and Japan.

On October 7, Kansai Airports Group's official mascot character Sorayan will get out of the airport and appear at Kyocera Dome Osaka, co-starring with ORIX Buffaloes' mascot Buffalo Bull and Buffalo Bell for the first time, to give a hearty cheer for the players. What is more, as part of the campaign, a limited-edition sticker featuring Bull & Bell and Sorayan will be given to those posting a message of support on Twitter and customers purchasing Buffaloes' official merchandise at Osaka International Airport (ITAMI) or Kobe Airport (KOBE).

Kansai Airports Group will continue to collaborate with the local community to deliver unique and fun experiences to a wider group of people.

Campaign outline

1. Buffalo Bull & Bell and Sorayan to cheer on the players

- Date & Time October 7, 2021 from 17:30 (about three minutes)
- Location Kyocera Dome Osaka (ORIX Buffaloes vs Hokkaido Nippon-Ham Fighters)
- Details Special collaboration of ORIX Buffaloes' mascot Bull & Bell and Kansai Airports Group's mascot Sorayan
- * The time may be changed due to unforeseen circumstances
 - * Open only to ticket holders for the game
 - * The event will be filmed and posted on Kansai Airports' social media sites

Sticker
(For illustration purposes only)

Shaping a New Journey

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016. Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority.

Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.

About ORIX:

ORIX Corporation (TSE: 8591; NYSE: IX) is a financial services group which provides innovative products and services to its customers by constantly pursuing new businesses.

Established in 1964, from its start in the leasing business, ORIX has advanced into neighboring fields and at present has expanded into lending, investment, life insurance, banking, asset management, automobile related, real estate and environment and energy related businesses. Since entering Hong Kong in 1971, ORIX has spread its businesses globally by establishing locations in 31 countries and regions across the world.

Going forward, ORIX intends to utilize its strengths and expertise, which generate new value, to establish an independent ORIX business model that continues to evolve perpetually. In this way, ORIX will engage in business activities that instill vitality in its companies and workforce, and thereby contribute to society. For more details, please visit our website:

(As of March 31, 2021)

VINCI Airports, the leading private airport operator in the world, manages 45 airports in 12 countries in Europe, Asia and the Americas. We harness our expertise as a comprehensive integrator to develop, finance, build and operate airports, while leveraging our investment capability and expertise in optimising operational performance, modernising infrastructure and driving environmental transition. VINCI Airports became the first airport operator to start rolling out an international environmental strategy, in 2016, with a view to achieving net zero emissions throughout its network by 2050.
