

One-day ITAMI Experience Tour (J-AIR charter flight)

for residents of 10 cities around the airport

On November 20, 2021, J-AIR Co. Ltd. (J-AIR) and Kansai Airports will hold a one-day ITAMI tour on J-AIR's charter aircraft, exclusively for residents of 10 cities around Osaka International Airport (ITAMI).

J-AIR, based in ITAMI, (head office in Ikeda, Osaka; President Yukio Shishikura) provides safe and secure, comfortable travel experience by connecting 28 domestic airports in a wide comprehensive route network.

Kansai Airports Group (head office in Izumisano, Osaka; Representative Director and CEO Yoshiyuki Yamaya) operates three airports in the Kansai region, Kansai International Airport (KIX), Osaka International Airport (ITAMI), and Kobe Airport (KOBE), and last summer, the Osaka International (ITAMI) Airport Terminal Building was renovated and grandly reopened for the first time in about 50 years, creating an exciting, more comfortable and enjoyable travel experience.

This time, J-AIR and Kansai Airports are jointly holding an ITAMI one-day tour to revitalize the Kansai region, having prepared a plan to bring airports and aviation closer to the public and to make it more enjoyable for children as well. The participants will be able to enjoy a bus ride on the airport service road alongside the runways and take a tour of the airport fire station, all of which are usually off-limits to the public. What is more, a scenic flight operated by J-AIR, which will celebrate its 25th anniversary in November, will take you over Hiroshima and Nagoya, which are places associated with J-AIR. We are planning a variety of activities.

Please take this opportunity to apply with your family. A perfect family day out at the airport!
