

**Kansai International Airport BCP measures**  
**Kansai Airports wins the Osaka Governor's Award**  
**for the Climate Change Action Awards**

Kansai Airports is pleased to announce that we have been selected as the Osaka Governor's Award winner for the 2022 Osaka Climate Change Action Awards.

The "Osaka Climate Change Award" is given to companies with offices in Osaka Prefecture or their business facilities that have made outstanding efforts to set an example for others regarding climate change countermeasures and heat island effect mitigation.

In response to the damage caused by Typhoon Jebi in September 2018, Kansai International Airport raised the seawalls around the airport island by adding the projected sea level rise due to climate change to the usual amount of raising, as well as installing wave-dissipating blocks, raising electrical equipment to aboveground level, and installing large scale water cut off barriers.

The award was given in recognition of Kansai International Airport's disaster prevention project as the best effort in the field of application from comprehensive perspectives such as sustainability and ripple effects.

This disaster management project aims to mitigate and contain the effects of natural disasters, such as unexpected typhoons that have become larger due to climate change, and minimize their impact on the Kansai economy.

Kansai Airports Group will continue to work with stakeholders of the airports to create a safe and secure environment for our airport users.

Raising of seawalls

Wave-dissipating blocks

Relocation of electrical facilities above ground

Installation of large scale water cut off barriers

 **KANSAI AIRPORTS**

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka International Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
