Osaka International Airport (ITM) to hold comprehensive aircraft accident response drill

Kansai Airports today announced that a full-scale aircraft accident drill using actual aircraft will take place on November 2, 2023 at ITM.

The drill, which will be conducted in accordance with the Osaka International Airport Emergency Plan, is designed to confirm cooperation with relevant organizations and ensure prompt and appropriate firefighting, rescue, and medical activities in case of an aircraft accident causing a large number of injuries.

Kansai Airports Group will continue conducting various drills to provide all airport users with a safe and secure environment.

Drill outline

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport ("KIX") and Osaka International Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of "One Kansai Airports Group", Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
