KIX aircraft refueling facility in-house disaster management team wins the first grand prize at the MIC's skill contest.

-FY2023 Skills Contest for In-house Disaster Management Organizations in Petroleum Complexes, etc.-

Kansai Airports Group is pleased to announce that our aircraft refueling facility in-house disaster management team at Kansai International Airport won the Grand Prize for the first time in the "FY2023 Skills Contest for In-house Disaster Management Organizations in Petroleum Complexes, etc."

The "Skill Contest for Self-Defense and Disaster Prevention Organizations in Petroleum Complexes, etc." is a contest organized by the Fire and Disaster Management Agency (FDMA) of the Ministry of Internal Affairs and Communications (MIC) since 2014 to improve the skills and morale of in-house disaster management organizations at a specific business establishment in an oil complex area, and to strengthen the disaster prevention capability of that area. Kansai International Airport is designated as a specified business establishment because we store aircraft fuel, and have established the in-house disaster management team. We have participated in this contest every year and have received seven outstanding performance prizes and two encouragement prizes.

Kansai Airports Group will continue to ensure the safety of our customers' travel and create an environment where people can use the airports with a sense of security.

Outline of "Skill Contest for Self-Defense and Disaster Prevention Organizations in Petroleum Complexes, etc."

Organizer: FDMA of MIC

Participants: In-house disaster management organizations and joint disaster management organizations of specified business establishments that own large chemical high-altitude water trucks and foam trucks or high-altitude water trucks and chemical fire trucks, which the fire department in charge of the establishment recommends.

Details: Competition using large chemical high-altitude water trucks and foam trucks or high-altitude water trucks and chemical fire trucks

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport ("KIX") and Osaka International Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of "One Kansai Airports Group", Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
