

Plastic bottle collection bins for closed-loop recycling installed in KIX
-Contributing to the promotion of a circular economy through "bottle-to-bottle" recycling-

Kansai Airports is delighted to announce the installation of dedicated collection bins in Kansai International Airport (KIX) for a "bottle-to-bottle" recycling, a closed-loop recycling of plastic bottles.

Kansai Airports Group has been working on reduction of plastics, conversion of materials and a closed-loop recycling as major initiatives for the "circular economy," one of the axes of our environmental plan (Environmental Vision 2050 and Environmental Goal 2030).

We installed those dedicated collection bins for "bottle-to-bottle" recycling to promote the above initiatives. We regard "plastic bottles as resources", and recycling plastic bottles enables circulations of resources while reducing waste and CO2 emissions.

Kansai Airports Group will continue to contribute to the realization of a sustainable society by promoting initiatives for decarbonization, a circular economy, and an environmental symbiosis.

Collection bins

Added English and illustrations for customers from overseas

Locations

2 Locations on Level 2, Terminal 1 Building

4 Locations on Level 4, Terminal 1 Building

Planning to install more bins, and also in Osaka International Airport and Kobe Airport

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport ("KIX") and Osaka International Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of "One Kansai Airports Group", Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
