

Introducing Osaka International Airport's newest "instagrammable" spots!

- Chance to take photos with AR Sorayan and airplane -

Kansai Airports is delighted to inform you of new photo opportunities with AR (augmented reality) Sorayan at Osaka International Airport.

At the new photo ops, you can take pictures with AR Sorayan, the official character of the three Kansai airports, against the backdrop of the view from the Observation Deck and the spectacular image of an airplane. We are hoping that more and more of you would feel affinity with the airport and Sorayan and to share the appeal with your friends and others. To realize this goal, we brought this project into life.

These photo ops are full of our wishes to make the airport a fun place for you by using available space within the airport, such as an exhibition of photos taken by aircraft-loving photo-loving employees. We look forward to welcoming you!

Kansai Airports Group continues to create exciting and enjoyable airport experiences for our customers.

■ Place: Before security check

1) Around the "Sorayan Park" on the Observation Deck on the 4th floor of South Terminal

After security check

2) Around Gate 13 on ANA/IBEX side of South Terminal

3) Around Gate 14 on JAL/AMX side of North Terminal

■ Details: When you scan the QR code at each of the three photo ops, "AR Sorayan" will appear on your device, and you are ready to shoot photos and videos with him. Enjoy!

Please post your photos on social media with the hashtag #そらやん AR を撮ってみた (#Photos with AR Sorayan).

■ URL: https://www.osaka-airport.co.jp/shop-and-dine/notices/sorayan_ar

*"AR Sorayan" poses differently at each photo op.

*The last day of these photo ops is to be determined.

Shaping a New Journey

Kansai Airport Co., Ltd., was established by a consortium led by ORIX Corporation and VINCI Airports. The management of Kansai International Airport (KIX) and Osaka International Airport (ITAMI) has been taken over from New Kansai International Airport Co., Ltd., and the company has been operating both airports since April 1, 2016.

On April 1, 2018, Kansai Airport Kobe Co., Ltd., a 100% investment company of Kansai Airport Co., Ltd., took over the management of Kobe Airport (KOBE) from Kobe City and started the business.

As the "One Kansai Airport Group," we will give top priority to the safety and security of airports, and strengthen our services to airport users from Japan and overseas through appropriate investment and efficient operation. We will also maximize the potential of the three Kansai airports and contribute to the local community.

For more information, please refer to the Kansai Airport Group website: www.kansai-airports.co.jp/.

About Orix Groups

Orix is a financial services group that constantly pursues new businesses and provides advanced products and services.

In 1964, Orix started its leasing business and expanded into neighboring fields. Today, Orix has diversified its business into corporate finance, industrial/ICT equipment, environmental energy, automotive, real estate, business investment and concessions, banking, and life insurance. Since expanding into Hong Kong in 1971, Orix has established offices in approximately 30 countries and regions around the world and is active globally.

Going forward, we will continue to contribute to society through corporate activities that bring vitality to companies and people based on our unique business model called Orix, which is not perfect.
