A New Measure Against Delayed Flights at Osaka Itami Airport

Kansai Airports will implement new measures for delayed flights exceeding Osaka Itami Airport's operating hours (9:00 p.m.) starting from April 1, 2025.

Under these new measures, Kansai Airports will introduce a "Night-time noise control charge" for delayed flights that land or take off beyond the airport's operating hours due to unavoidable reasons not attributable to the airline. This charge will be collected from the operating airlines. The revenue from this charge will be used to improve the living environment of the areas surrounding the airport.

In addition, the update of delayed flights will be published on our website as needed. The Kansai Airports Group remains committed to creating airports that are environmentally conscious and contribute to the local community developments.

OImplementation Date: April 1, 2025

OCharge Structure: An amount equivalent to twice the landing charge will be collected as the "Night-time noise control charge"

- * This charge will be collected separately from the landing charge
- * Both departing and arriving flights will be subject to this charge

OUse of Funds: The collected charges will be used for projects aimed at improving the living environment in the areas surrounding the airport

Reference:

The update of delayed flights is published on the next business day of the delays starting from April 1, 2025

Shaping a New Journey

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport ("KIX") and Osaka Itami Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of "One Kansai Airports Group", Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
