### \*About Kansai International Airport AODB

AODB is the central database that allows us to aggregate and integrate various data related to airport operations. It enables us to share information in real time with airport stakeholders, including the Civil Aviation Bureau, airlines, and transport operators. Kansai International Airport have fully introduced AODB from 2023 and we aim to optimize the allocation of airport resources.

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport ("KIX") and Osaka Itami Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on April 1, 2018.
