Robotic mowers introduced at KIX and ITAMI!

Kansai Airports is pleased to announce that we officially began a full-scale operation of robotic mowers at Kansai International Airport (KIX) and Osaka Itami Airport (ITAMI) on Tuesday, April 1, 2025.

This marks the first time robotic mowers have been introduced at both airports. The initiative aims to reduce workers' workload, minimize the disposal of cut grass, and enhance the overall appearance of green space maintenance within the airport premises.

The newly introduced machines can be monitored and remotely controlled via a dedicated app, contributing to more efficient airport operations. This initiative is also part of our broader digital transformation (DX) efforts.

Kansai Airports Group will continue to pursue sustainable airport operations while creating comfortable and enjoyable travel experiences.

Overview

Airport	KIX		ITAMI	
Deployment	April 1, 2025			
Manufacturer	YAMABIKO Corporation		Husqvarna	
Product name	ECHO ROBOTICS		AUTOMOWER™

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai Itami Airport ("KIX") and Osaka Itami Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of "One Kansai Airports Group", Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
